

## **MESSAGE FROM PRINCIPAL**

Mrs Rinku Borgohain Barman  
Principal  
ARPS JORHAT

*"dreams is not what you see in sleep  
Is the thing which doesn't let you sleep".*  
**Dr.APJ Abdul Kalam**

ARPS Jorhat is a dynamic, progressive and a wonderful place to teach and learn. It caters to the educational needs of roughly 1100 students. The large number of curricular and co-curricular activities in the school create countless opportunities for the students. An experienced and aptly qualified teaching staff is the driving force of this school. The school is also privileged to have the wholehearted support of the parents and the management in all its endeavours.

Amongst the various CBSE schools in Jorhat, ARPS has always topped the chart for the successful and 100% result which has helped build the students' fruitful careers ahead. Every year a host of guest lectures and career counsellors come to provide information to the budding students. The School provides students a rich educational experience that combines a strong academic focus with opportunities for students' personal, social and emotional growth.

The school strives for excellence in all walks of child education and hence offers a comprehensive package of activities in its gamut to draw out the best potential. Every child is endowed with creativity and inborn talent and these inherent intrinsic qualities are best tapped through the multifarious opportunities provided to them.

In the fast-paced world, the role of education becomes very crucial as it requires to mould a child into an individual capable of contributing effectively not only to the society but also to the world community at large. I am confident that ARPS Jorhat will continue its exhilarating journey towards excellence.

Fond regards

Mrs Rinku Borgohain Barman.
